2026 Data Science and AI Leadership Summit

Save the Date!

The 2026 Leadership Summit will be hosted by the University of Arizona on March 16 - 18, 2026 in Tucson, AZ.

About the Summit

The **Data Science and AI Leadership Summit** convenes around 100 distinguished thought leaders, educators, and innovators to discuss the implementation and management of AI and Data Science in education and research. The goals of the Summit are: to form an academic community for data science and AI; to share best practices where they face similar challenges and opportunities; and to take collective responsibility in preparing next-generation data and AI professionals to contribute in the best interests of society. *Attendance at the Leadership Summit is by invitation only; email micaela@alliance4datascience.ai if you're interested.*

Program will include:

Session Deep Dives (see session descriptions below)

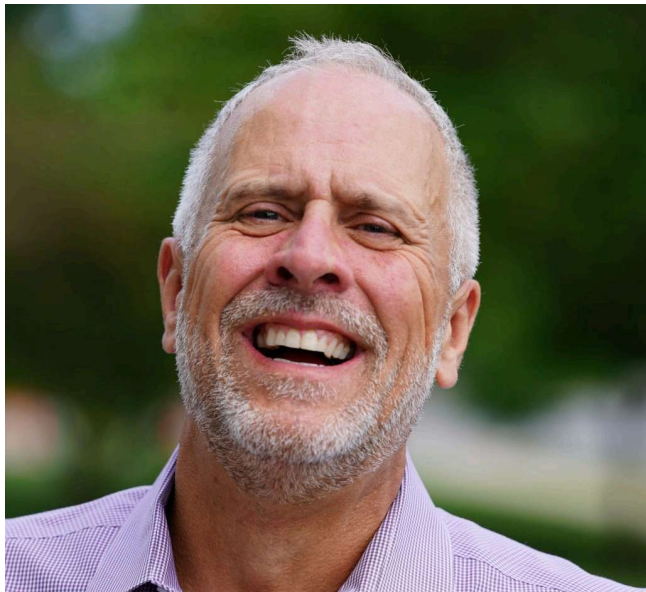

New Member Welcome talks

Unconference talks

FREE optional participation in University of Arizona's "Universities As AI Stewards For Arizona And Beyond" Summit on Day 3

Special interest meetings and focused discussions
Networking, and more!

Keynote Speaker: Scott Latham

Scott Latham, Ph.D., Business Policy and Strategy;
University of Massachusetts, Lowell

After a successful career in the IT industry during the '90s and '00s, where Dr. Latham participated in the .com disruption firsthand while working at several small startups, he earned a PhD in business policy and strategy. His research has focused on organizational decline, innovation, and, more recently, the future of work. He is fascinated with how technology changes the structure of industries, organizations, and jobs. He has been published in the top practitioner and academic journals in his field, including MIT Sloan Management Review, Harvard Business Review, the Academy of Management Review, Journal of Management Studies, and the Chronicle of Higher Education. His research has received major federal funding from the NSF, US Department of Labor, and US Department of Defense. In addition to being a professor, Dr. Latham has served as the Manning School of Business Dean and the Vice

Provost for Workforce Development at UMass Lowell. Since 2009, he has been a board member at Massachusetts Medical Device Center, a joint life sciences incubator at UMass Medical School and UMass Lowell, and he has served on the board of Ethos Veterinary Innovation and the Boston Federal Reserve Bank's future of work committee. Selected publications: **Four Ways Jobs will Respond to Automation**; **Memo to Faculty: AI is Not Your Friend, The Time to Resist is Now**; **Are we ready for the AI university?**; **When AI Becomes an Agent of the Firm: Examining the Evolution of AI in Organizations Through an Agency Theory Lens**
